

Design Your Own Country

Imagine that you are creating a new country. Draw a map of it in the box below. Include any important geographical features such as lakes, rivers, deserts, forests and mountains. Label the major cities. Is it an island or does it border any other countries?

Name of country:

Continent:

Population:

Climate:

Official language/s:

Physical features:

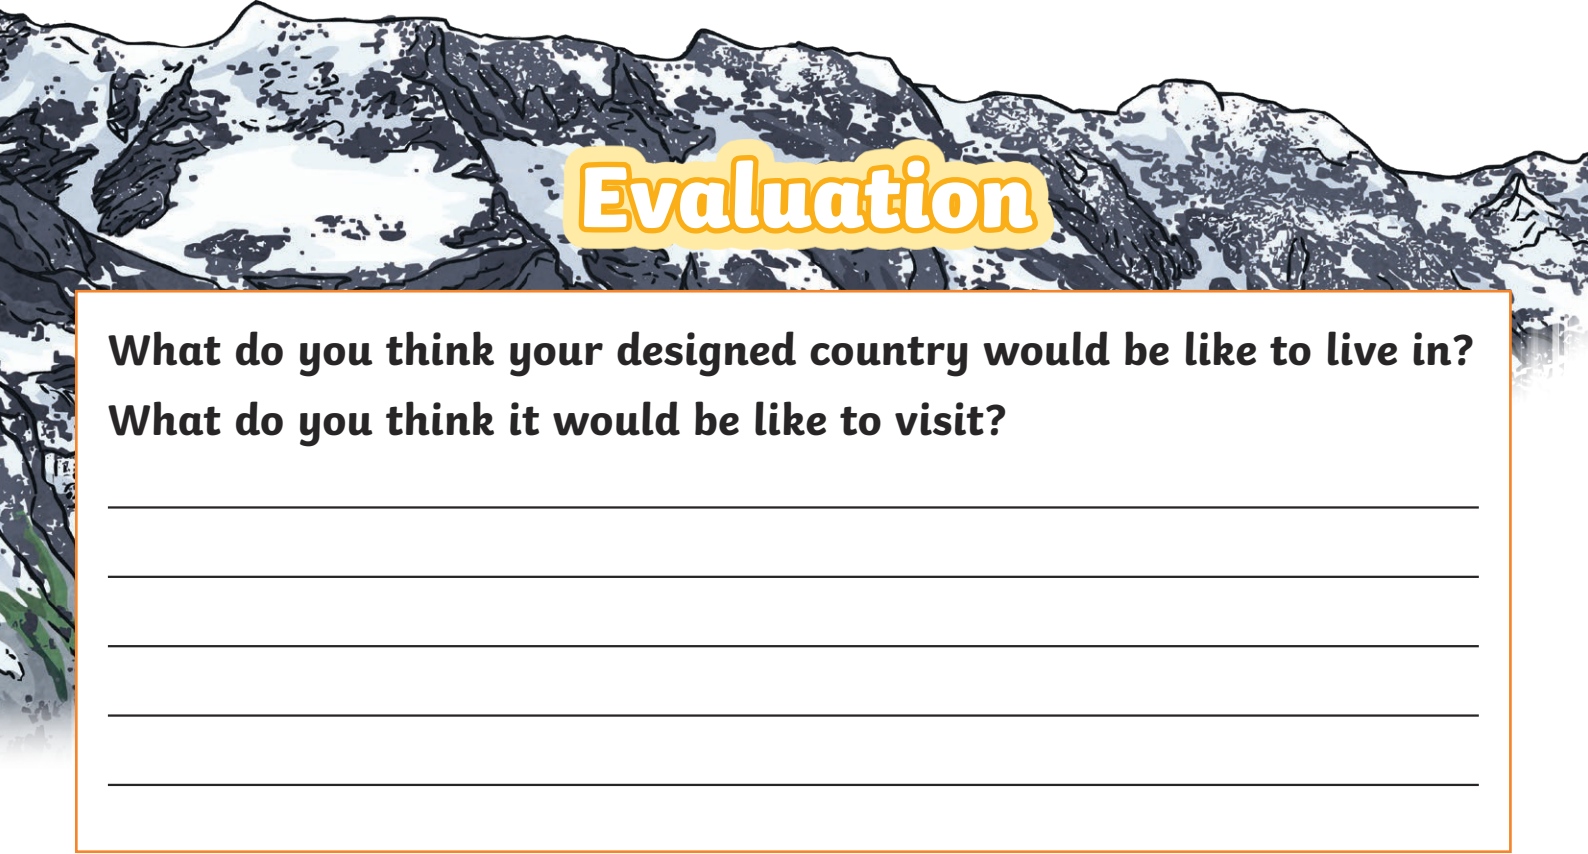

Animals and plants:

Interesting facts:

Human features:

Flag:

Evaluation

**What do you think your designed country would be like to live in?
What do you think it would be like to visit?**

Which existing countries are similar to your country? How are they similar? Which existing countries are different? How?

If you were to make changes to the way your country functions or is designed, how would you change it?
